PROFESSIONAL SUMMARY

Motivated Computer Science postgraduate with hands-on experience in Front-End Web Development using HTML5, CSS3, JavaScript (ES6+), Bootstrap, and React.js. Skilled in building responsive, user-friendly web applications with a strong foundation in UI development and problem-solving. Passionate about creating modern web solutions and eager to contribute technical expertise to innovative teams.

SKILLS

- **Front-end** – HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS, React.js, Responsive Web Design
- **Web Concepts** – DOM Manipulation, React Hooks, Component Architecture, REST API Basics, JSON, json server.
- **Programming Languages** – C++, Java, Python - (Basics)
- **Database** – MongoDB
- **Tools** – Git, GitHub, VS Code, Chrome DevTools, Ms Excel, Office Tools
- **Soft Skills** – Problem Solving, Team Collaboration, Communication, Adaptability

PROJECTS

To-Do List Web Application, HTML, CSS and JavaScript

Developed a fully responsive task management app with add, edit, and delete functionality. Implemented dynamic DOM manipulation for real-time task updates without page reload. Applied mobile-first design principles ensuring cross-device compatibility.

YouTube Clone, HTML, CSS

Recreated the YouTube homepage interface with pixel-accurate layout replication. Applied Flexbox and CSS Grid for a modern, fully responsive page structure. Focused on clean semantic HTML and cross-browser styling consistency.

E-Commerce Website, HTML, CSS and JavaScript

Built a multi-page responsive e-commerce site featuring product listings and interactive UI. Designed mobile-friendly layouts using Bootstrap grid system and custom CSS. Incorporated interactive components to enhance the user shopping experience.

Instagram-Clone, HTML, CSS, Bootstrap, React.js

Developed a responsive Instagram-inspired social media interface using React.js. Implemented component-based architecture and reusable UI components. Created dynamic post feeds and modern responsive layouts. Applied React state management and routing concepts.

CERTIFICATES

- (15 Days) Frontend Web Development Program - Coursevita
- HTML, CSS, Javascript - Great Learning Academy
- (30 Days) Full Stack Development - NoviTech R&D Private Limited.
- Advanced C++, Java (Training) - Spoken Tutorial Project, IIT Bombay

INTERNSHIP

Business & Data Analytics, YBI Foundation

05/2025 – 06/2025 | Remote

- Completed a one-month internship program focused on business and data analytics fundamentals.
- Gained exposure to data interpretation, reporting, and analytical thinking.

Python, EduPyramids, SINE IIT Bombay

09/2025 – 11/2025

- Completed training in Python programming fundamentals.
- Practiced core programming concepts and problem-solving techniques

Java Business Application, EduPyramids, SINE IIT Bombay

09/2025 – 11/2025

- Completed self-paced training on Java programming and business application concepts.
- Learned object-oriented programming principles and application development fundamentals.

EDUCATION

M.Sc Computer Science, Sri Sankara Arts and Science College
CGPA - 8.2

2026

B.Sc Computer Science, Sri Sankara Arts and Science College
CGPA - 7.3

2024
